CONNECT YOUR PC TO OTHER BLUETOOTH DEVICES
(SUPPORTS VOICE & DATA)

USER MANUAL

BT-USB

SABRENT USB BLUETOOTH ADAPTER

Add Bluetooth wireless technology to your Desktop or Notebook at a fraction of the size of normal Bluetooth USB adapters. Simply connect your Wireless Bluetooth Dongle to an available USB port to easily pair up to seven (7) Bluetooth devices, such as cell phones, PDAs, mice and keyboards. The Sabrent adapter features Bluetooth 2.0 EDR (Enhanced Data Rate) technology for transfer rates that are 3 times faster than traditional Bluetooth 1.1 and 1.2 adapters, data transfer up to 3Mbps.

FEATURES

- Share/Edit/Print documents via Bluetooth
- Enable wireless connectivity between a notebook computer and a cellular phone
- Access internet via Bluetooth Mobile phone with GPRS/ CDMA or Bluetooth-enabled PC with internet connection
- Connect a Bluetooth headset to your PC
- Supports up to 7 ACL connections and 3 SCO connections
- Built-in Link controller and Link Manager Protocol
- USB interface works with desktop and notebook computers

SYSTEM REQUIREMENTS

- Available USB port
- Windows XP, Windows VISTA, Windows 7
- Mac OS X v 10.1.2 and Higher
- Linux OS

PRODUCT LIST

- USB Bluetooth Adapter
- Driver/Software CD

SABRENT BT-USB USER MANUAL

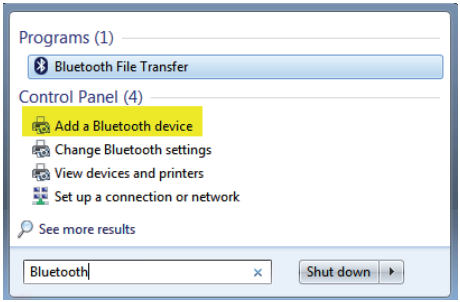
DRIVER INSTALLATION

Note: This depiction is based on Vista/7, but under other operating systems, it may be slightly different.

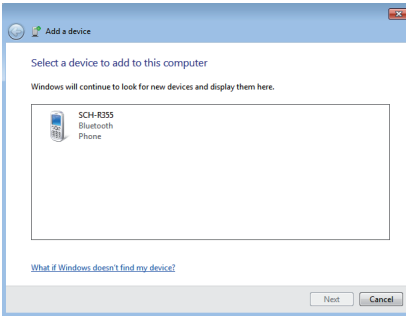
1. Insert the Sabrent Bluetooth Adapter into an available USB port on your computer.
2. Windows Vista/7 will automatically find and install drivers for the Adapter. If Windows prompts you to search for latest drivers online, select OK to complete the driver installation.
3. At this point you should see the Adapter fully installed in Device Manager:

Networking Bluetooth Devices:

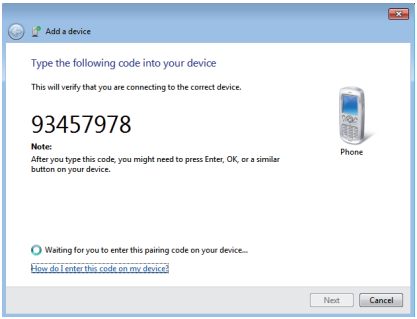
1. Windows Vista/7, click the Start button and type “Bluetooth” into the search box. This will bring up several options; select Add a Bluetooth device.



2. Set up your Bluetooth device to Discovery mode. Your device will then appear in the list of available device.



3. Select the Device and select Next:



Add a device
Type the following code into your device
This will verify that you are connecting to the correct device.
93457978
Note:
After you type this code, you might need to press Enter, OK, or a similar button on your device.
Phone
Waiting for you to enter this pairing code on your device...
How do I enter this code on my device?
Next
Cancel

4. Your Bluetooth device will ask confirm that you want to pair the device to the network. You will have the option of using a code or not. (Please refer to the device's manual: most often the password will be 0000 or 1234.)

Add a device
This device has been successfully added to this computer
Windows is now checking for drivers and will install them if necessary. You may need to wait for this to finish before your device is ready to use.
To verify if this device finished installing properly, look for it in Devices and Printers.

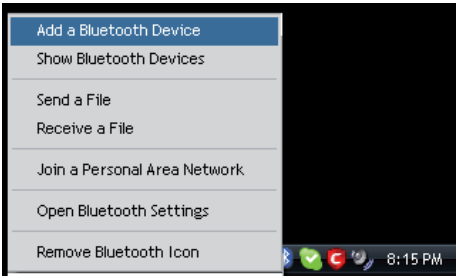
DRIVER INSTALLATION FOR WINDOWS XP:

1. Insert the Sabrent Bluetooth Adapter into an available USB port on your computer.

2. Windows XP will automatically find and install drivers for the Adapter. If Windows prompts you to search for latest drivers online, select OK to complete the driver installation.

3. At this point you should see a small Bluetooth icon in your System Tray next to your clock. Right click on the icon; this will open up a new menu. Click on Add a Bluetooth Device.



4. Click the Checkbox and Set up your Bluetooth device to Discovery mode. Click Next:

Add Bluetooth Device Wizard
Welcome to the Add Bluetooth Device Wizard
Before proceeding, refer to the "Bluetooth" section of the device documentation. Then set up your device so that your computer can find it:
- Turn it on
- Make it discoverable (visible)
- Give it a name (optional)
- Press the button on the bottom of the device (keyboards and mice only)
My device is set up and ready to be found.
Add only Bluetooth devices that you trust.

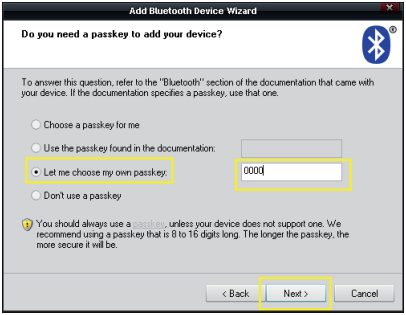
6. You will be given the option of using a code or not. Click on Let me choose my own passkey and type in either 0000 or 1234. Your Bluetooth device will confirm that you want to pair the device to the network. Type the same code into the device if necessary.



Add Bluetooth Device Wizard
Do you need a passkey to add your device?
To answer this question, refer to the "Bluetooth" section of the documentation that came with your device. If the documentation specifies a passkey, use that one.
Choose a passkey for me
Use the passkey found in the documentation:
Let me choose my own passkey:
0000
Don't use a passkey
You should always use a passkey, unless your device does not support one. We recommend using a passkey that is 8 to 16 digits long. The longer the passkey, the more secure it will be.

DRIVER INSTALLATION FOR MAC OS X:

1. Insert the Sabrent Bluetooth Adapter into an available USB port on your computer.

2. Mac OS X will automatically find and install drivers for the Adapter. If OS X prompts you to search for latest drivers online, select OK to complete the driver installation.

Networking Bluetooth Devices:

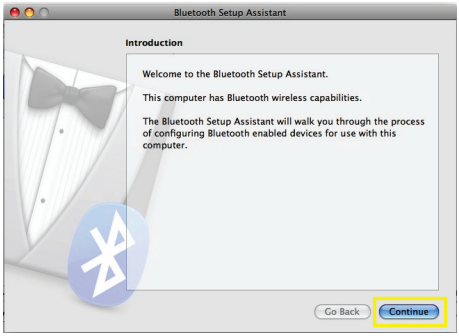
1. Click the Apple button and select the Bluetooth button. This will bring up a new page:

2. Click on the Bluetooth button:

3. Click the checkbox to turn your Bluetooth device On.

4. Click on Set Up New Device:

5. You should be prompted to the Bluetooth Setup Assistant; click Continue to go through the Setup:



Bluetooth Setup Assistant
Introduction
Welcome to the Bluetooth Setup Assistant.
This computer has Bluetooth wireless capabilities.
The Bluetooth Setup Assistant will walk you through the process of configuring Bluetooth enabled devices for use with this computer.
